

March 26, 2010

Dear Members of Congress:

As Child Nutrition Reauthorization moves through Congress, we urge you to champion effective efforts to expand and improve program access for children who rely on these critical nutrition programs while in child care, school-based and out-of-school time settings. The child nutrition programs play a vital role in helping children, especially those in low-income families, achieve access to quality nutrition, child care, and educational and enrichment activities while improving their overall health, development, and school achievement. These programs are proven to work, but too many children continue to miss out on their benefits because of low participation rates and unnecessary access barriers.

In order to improve access to the child nutrition programs, we believe a strong Child Nutrition Reauthorization bill must:

- Expand the Afterschool Meal Program to all 50 states (S. 990/H.R. 3321);
- Improve the area eligibility test so more communities can operate afterschool, summer, and family child care food programs (S.3040/H.R. 4734 and S. 2749/H.R. 4402);
- Provide funds for grants to support the start-up and expansion of universal and in-classroom school breakfast programs in low-income schools (H.R. 4325) and provide breakfast commodity support (H.R. 4638);
- Invest in Summer Nutrition Programs by providing funding for start-up, outreach, and transportation grants (transportation grants included in S. 3040/H.R. 4734);
- Allow child care centers and homes the option of serving a third meal (S. 2749/H.R. 4402);
- Eliminate unnecessary paperwork that is a barrier to participation through data-based eligibility systems in schools in high-poverty areas and through improved direct certification systems (S. 1343/H.R. 4148); and
- Streamline afterschool nutrition rules to allow community-based and local governments in all states the ability to provide meals and snacks year-round through the rules and paperwork of the Summer Food Service Program (H.R.4274).

A strong Child Nutrition Reauthorization Bill also requires significant new funding in order to ensure expanded program access and improved nutrition. President Obama has included in his budget one billion dollars a year in new funding for the reauthorization effort. We urge the Congress and Administration to work together to identify funding sources that will allow millions more children the opportunity to participate in the child nutrition programs.

Despite the extraordinary challenges facing our nation, investing in our children makes economic and fiscal sense and is crucial to the nation's health, competitiveness and security.

Sincerely,
