

Funding for Your Child Nutrition Programs- It pays to serve meals all year!

The Afterschool Meal Program and Summer Food Service Program (SFSP) are great ways to increase program income as well as provide meals to low-income children who attend your programs. FRAC encourages serving meals instead of snacks whenever possible. The tables below show the per meal federal reimbursement rates for these two programs, as well as projected annual program income based on the number of children you will serve.

Table 1: Afterschool Meal Program Reimbursement Rates: Jul 1, 2016 – Jun 30, 2017

<i>Meal type</i>	<i>Amount per child</i>	<i>Rural or self-prep sites</i>
Afterschool Breakfast	\$1.71	n/a
Afterschool Supper or Lunch	\$3.39 (includes \$0.23 cash in lieu of commodities reimbursement per child)	n/a
Afterschool Snack	\$0.86	n/a
