Organizational Background

FRAC works to improve the nutrition, health, and well-being of people struggling against poverty-related hunger in the United States through advocacy, partnerships, and by advancing bold and equitable policy solutions. To attain this mission, FRAC engages in research, policy analysis and advocacy, coalition-building, outreach, technical assistance and training, and an array of communications strategies. In partnership with hundreds of national, state and local nonprofit organizations, public agencies, corporations, schools, and labor organizations, FRAC addresses hunger and food insecurity, and poverty as their root cause.

Founded in 2002, D.C. Hunger Solutions is a separately staffed and budgeted initiative of FRAC, seeking to end hunger in the nation's capital. By leveraging substantial available federal dollars and improving D.C.'s operations of federal and local nutrition programs, D.C. Hunger Solutions work has helped to feed tens of thousands of District residents struggling with hunger and has increased access to healthy, affordable food. D.C. Hunger Solutions also leads or plays a key supporting role in the efforts of the various anti-hunger and anti-poverty coalitions throughout the city (e.g., the D.C. Fair Budget Coalition, D.C. Food Policy Council, the Language Access Coalition, the Senior Advisory Coalition, and the Mayor's Commission on Healthy Youth and Schools). For more information on D.C.
