The number of seniors (60+) across the nation is growing and far too many struggle with hunger and food insecurity.

Nationally, 9.5% of households with seniors face food insecurity. In Nebraska, 8.3% of households with seniors face food insecurity.

Due to income constraints, food-insecure households with older adults do not have consistent access to enough food for healthy, active living. The impact of senior hunger extends well beyond an empty stomach and wallet.

---

**Seniors Struggling With Food Insecurity may Experience a Number of Challenges:**

- Food running out
- Skipping meals
- Choosing between food and medicine
- Postponing medical care
- Poor health outcomes
- Higher health care use and costs

For the purpose of this analysis, "Metro Areas" are metropolitan statistical areas delineated by the Office of Management and Budget (OMB), each of which contains at least one Census Bureau-delineated urbanized area of 50,000 or more people. "Small Towns" are micropolitan statistical areas as delineated by OMB, each containing at least one Census Bureau-delineated urban cluster of between 10,000 and 50,000 people, and "Rural Areas" are non-metropolitan and non-micropolitan areas.

SNAP Matters for Seniors
Supplemental Nutrition Assistance Program (SNAP)

SNAP, the nation’s first line of defense against hunger, is critically important to seniors.

- Improved food security
- Better nutrition
- Improved health
- Better medication adherence
- Fewer difficult choices
- Lower health care costs
- Reduced hospital & nursing home admissions

In addition to improving the food security, health, and well-being of seniors, federal SNAP dollars stimulate local economies through assistance that goes directly to struggling seniors to purchase food.

To get more seniors participating in SNAP, states and anti-hunger advocates can:

**Educate**

policy makers on the importance of SNAP in addressing senior hunger

**Partner**

with health care providers, senior centers, faith-based organizations, and retailers to counsel seniors on SNAP benefits and to provide application assistance

**Adopt**

state practices and policies to help ease barriers to SNAP enrollment and to ensure seniors receive the maximum amount of SNAP benefits to which they are entitled
