

In Florida

- SNAP reaches 1,870,739 households with 3,454,530 individuals in an average month (FY 2016).¹
- SNAP helps 1 in 5 rural and small town households and 1 in 7 households in metro areas afford healthy, nutritious meals.²

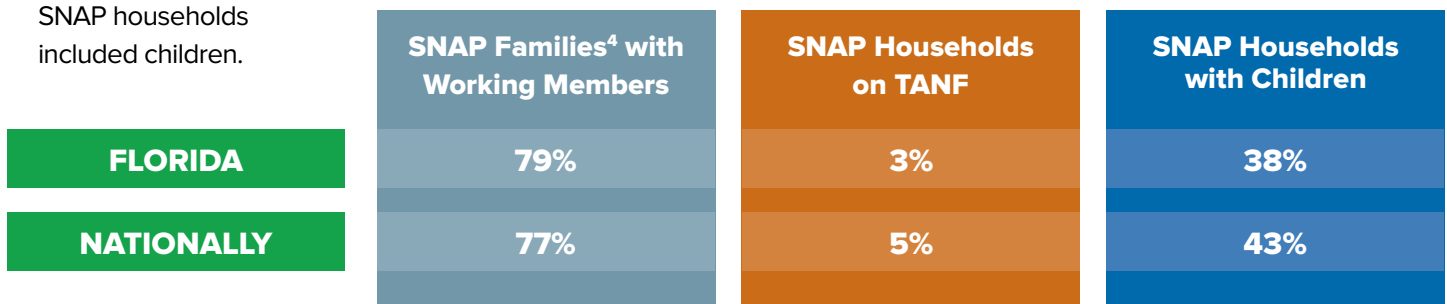

¹USDA, Characteristics of Supplemental Nutrition Assistance Program Households: Fiscal Year 2016.

²For the purpose of this analysis, “**Metro Areas**” are metropolitan statistical areas as delineated by the Office of Management and Budget (OMB), each of which contains at least one Census Bureau-delineated urbanized area of 50,000 or more people; “**Small Towns**” are micropolitan statistical areas as delineated by OMB, each containing at least one Census Bureau-delineated urban cluster of between 10,000 and 50,000 people; and “**Rural Areas**” are non-metropolitan and non-micropolitan areas.

³American Community Survey 2016 five-year estimates (2012-2016).

- Almost 80% of SNAP families had at least one working member in the past 12 months.
- A very small number of SNAP households (3% or 59,000) participate in TANF, making SNAP a critical safety net for families with children.
- More than one-third of SNAP households included children.

Source for working families data: American Community Survey 2016 five-year estimates (2012-2016).

Source for TANF and children data: USDA, Characteristics of Supplemental Nutrition Assistance Program Households: Fiscal Year 2016.

⁴Based on the Census Bureau definition, **family** consists of a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption.
