Far too many young children in Ohio experience food insecurity and poverty.

18.6% of children under age 18 live in a food-insecure household compared to 17.4% nationally.¹

26.6% of children 0-3 years old live in poverty compared to 23.7% nationally.²

In addition, far too many young children do not have a healthy start in life.³

THE IMPACT⁴

- Poor health
- Iron deficiency anemia
- Developmental delays
- Hospitalizations
- Less prepared for school

THE SOLUTION⁵

The federal nutrition programs for young children — the Supplemental Nutrition Assistance Program (SNAP), the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), and the Child and Adult Care Food Program (CACFP) — support health, nutrition, and well-being during early childhood and beyond.

The programs IMPROVE ...
- Overall health
- Birth weight
- Infant feeding practices
- Breastfeeding initiation
- Dietary quality
- Cognitive development
- Educational attainment & income in adulthood

The programs REDUCE ...
- Poverty
- Food insecurity
- Hospitalizations
- Preterm birth
- Infant mortality
- Stunting
- Anemia & nutritional deficiency
- Overweight & obesity
In Ohio, many young children and their families benefit from the federal nutrition programs:

- 68,204 infants, 91,104 children, and 49,647 women received nutrition counseling and nutritious foods through WIC in the average month. ($77.6 million in healthy WIC food benefits in FY2018.)
- 113,094 children received healthy meals and snacks on an average workday in child care participating in CACFP. (58 million CACFP meals and snacks were served in FY2018.)
- 166,000 children age 0-3 received SNAP food benefits to support good health and food security.

How does your state’s participation in the federal nutrition programs compare to the U.S.?
